NON PARTISAN JUDICIAL ELEC-
TIONS.

The Gazette has always advocated non-partisan nominations for judicial positions. It is always best to make the bench, whether county, circuit, or state, as free from politics as possible; and there will be many regrets that the republicans of Milwaukee have seen fit to nominate candidates for the county and municipal courts. But there is a reason why this was done. The Sentinel, which occupied the same position as the Gazette on the general question of a non-partisan judiciary, explains the matter in this way:

The Sentinel favored the reelection of Judge Mason and Judge Mallory without opposition. Not because it believed it difficult to replace either of these judges with another just as good, but because it did not believe in a break in the policy of non-partisanship in judicial elections. The fact that the democrats are partisan wherever they have a majority and that there appeared to be a tug-of-war by local democratic politicians in order to grab everything in sight, came in for little consideration as far as this paper was concerned. But as the feeling among republicans grew in favor of strict nominations, the idea has grown with the Sentinel that this was about as good a time as any to settle the question whether the democrats are to play shut-out between the republican and the "rebel element" as it is called, its interest, sweeping non-partisanship at their discretion and making non-partisanship a mere division of spoils. The end of the matter was reached when Judge Mallory took his stand on the not issue and as a martyr to the "rebel element."

When Governor Rusk was put up for re-election because this "rebel element" had assailed him for his part in the labor trouble, the democrats promptly nominated a candidate against him and this candidate was supported by Judge Mallory. Every democratic paper in the state on a level of democratic orator ridiculed the "rebel element," and the democrats, by refusing to sustain Governor Rusk, gave the city to the "rebel element" by over 2,000 plurality.

So it appears from the record that Judge Mallory is a good deal of a democratic politician, although he sits upon the bench. Whenever he can help the democrats he does not fail to extend the helping hand; and whenever he can render any assistance to his party friends in attempting to smash the republican party, the assistance is not withheld. Judge Mallory has made an excellent municipal judge, and on that score the republicans do not oppose him. But there was not wisdom in his political course. A judicial officer has no business to enter a political fight. He ought to vote as he deems best, but to stoop to the level of ward politicians is beneath his judicial dignity. Had Judge Mallory not let his sympathy go out for the "rebel element" when he should have stood firm for law and order, there would not have been any opposition to him.

It is hoped the time will soon come when the judiciary will be wholly out of politics; when there will be no reason why republicans should not vote for Judges Mann and Mallory, just as there is no reason whatever why democrats should not vote for Judge Sale and Patterson, or Associate Justice Cassaday. If Judge Sale for Judge Patterson mixed up political work with their judicial labors, no one could condemn the democrats for nominating candidates against them, but as their judicial careers are free from such blemishes, all people honor them for their non-partisanship, and no one could think of inaugurating a party contest against them. Judges Mann and Mallory ought to be in the same condition.

COUNTY JUDGE.

The flattering endorsement received by Judge J. W. Sale indicates the high regard entertained for him by men of all parties. His administration has been clean and his re-election means faithful service. Rock county is fortunate in having Judge Sale in the position he occupies. He will be supported at the polls most heartily. The office of county judge is a non-partisan office and should be so considered. While Judge Sale is a republican, his judicial career is free from any political tinge, and above reproach. He commands the respect and confidence of both democrats and republicans, and will be elected without opposition.

There will be democratic southern states devoted chiefly to farming and commerce, and republican Southern states, in which mines, mills, and factories will flourish. This is the way the South will be broken, and anybody who will give a little attention to the progress of events will see the breaking forces in full activity tonight now.—Philadelphia Enquirer.

This is prophetic. The state in the south in which the republican principle of protection will prevail, will surely become republican because their prosperity will come of mines, mills and factories. Democratic principles never develop mines, never establish factories and never build mills. Roger A. Pryor the chief of confederates, can read the signs of the times as well as any republican.

The new minister to Switzerland, Mr. Washburn, of Massachusetts, is said to be the handsomest man in that state. But that is not very harmful. The only thing that can be said against him is that he writes poetry, or verses, or whatever else it may be called. By the way it will strike the reader very forcibly that it is a strange sort of a day, when a Washburn gets left.

The democracy of Iowa can throw up

its hat. General Weaver, of that state, who has been a misrepresentative in congress for several years, has left that party. Grave fears are entertained that he will try to get in the republican party. It is hoped that such a misfortune will not occur.

There is only one strange thing about President Harrison's administration so far. It seems to go along on the principle that it never heard of Ohio. It is bad enough to get left in the ordinary way, but to be marshalled to the rear as Ohio is being done, there is a fearful sadness in the situation.

First Assistant Postmaster Clarkson is true to his pledges of civil service reform. He is filling post offices with republicans at the rate of one every five minutes.

There are some pretty loud calls for Greeham. President Harrison hears them, but he thinks Indiana has enough.

THE WISCONSIN LEGISLATURE.

The Senate by a Vote of 23 to 4, Pass a Vetted Bill.

Considerable Important Business Transacted in Both Branches of the Legislature.

Special to the Gazette.
MADISON, March 27.—The senate this morning indulged in quite a lengthy discussion over a motion to pass a bill over the governor's veto. Making man's property liable for expense of his last sickness and burial, and providing that when deceased, the homestead shall be liable for debts of deceased. The bill was finally passed over the veto by vote of 23 to 4.

The senate also passed the following bills:
Forbidding engineers using intoxicating liquors from taking out engines.
To punish by 35 years imprisonment any person carnally knowing children under 14 years.
To tax private libraries.
Regulating stopping of trains at crossing.

Prohibiting persons not members of local legion from wearing button or other insignia of that order.

Increasing salary deputy railroad commissioner to \$1750 and providing that office with statistical clerk and stenographer.

The following bills were concurred in:
Penalizing hotel keepers.
For more thorough inspection of creameries.

Regulating plumbing and house drainage in cities, villages, and towns having public water supply.

The assembly passed the following bills:
Extending lien laws so as to include miners.

Making county clerks ineligible to act as county canvasser in making recount when such clerk is candidate for re-election.

Empowering the Methodist Episcopal church to organize a corporation to insure church property.

Prescribing methods of reporting election returns, and concurred in:
Bills appropriating \$50,000 to veterans' home.

Compensating convicts for good conduct.

Increasing punishment for kidnapping.

For confinement of persons addicted to any lewd, lascivious or indecent behavior.

To prevent abduction of women.

Stand Not Upon the Order of Your Going.

But go it once and buy a bottle of the fragrant ROZODON. You will never regret it. It not only beautifies and preserves the teeth and arrests decay, but leaves the mouth cool, and the breath as fragrant as a rose.

A Fidelity Bank Suit.
CINCINNATI, Ohio, March 27.—A case set for trial at the April term of the United States court has hitherto been kept concealed because of the absence of the defendant, but now that he has returned and service has been had it is set for trial. This is the suit by Receiver Armstrong, of the fidelity bank, against Eugene Zimmerman for \$38,000. This was for a deposit of \$13,000, checked out of the fidelity bank by Zimmerman after it became insolvent, of which insolvency he had knowledge by reason of his being a director, and for a draft in his favor for \$13,000. Zimmerman denies knowledge of the insolvency of the bank, and explains that he received notes aggregating about \$38,000, which were worth 50 cents on the dollar, and the draft was given in pursuance of an agreement by Harper to repurchase \$15,000 worth of new fidelity stock.

The Weavers' Strike.
FALL RIVER, Mass., March 27.—According to reports furnished by the mills to the buyers under contract there were 6,433 looms running this morning. This is an estimated gain of 600 over yesterday, but it is not enough to make any difference in the situation. A few more weavers went back this morning, but most of the strikers are still firm.

Croighton, Neb.—John Rosenbarger, a farmer, shot dead Andrew Castaline in a row over a trivial matter, then burned his own house to the ground and shot himself dead.

Merit wins.
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. F. S. Sherer & Co. druggists.

Aunt Sarah and Uncle Dick spent yesterday afternoon at The Magnet, and were astonished to find what a great variety of things they could buy for five or ten cents.

WORK OF THE FIRE-FIEND.

TERRIBLE DISASTER IN A
BROOKLYN FACTORY.

Chicago Experiences Her Largest Fire Since 1871—A Mexican Disaster—Other Casualties.

NEW YORK, March 27.—A fire immediately followed by a heavy explosion and shock and attended by many casualties, and in which it is feared several persons have been consumed, started in the four-story brick building on Kent avenue, Brooklyn, about 1 o'clock yesterday afternoon, and inside of an hour the structure was a mass of ruins. The scene around the factory is beyond description. Woman after woman covered with blood, and many men in like condition, were rescued from the roof of a small building in the rear, all maimed, and one, at least, fatally injured. Hundred of people rushed from their houses and places of business, many leaving the accompanying shock to have been caused by earthquake. It required but a few minutes to show that the disaster was of a serious nature. An explosion had occurred on the first floor, occupied by the Eureka Shoe Manufacturing company. Forty-five hands are employed in the factory and the greatest excitement ensued. All the ambulances and four patrol wagons were telegraphed for and hurried to the spot. The explosion occurred in the office of the shoe company, of which Mr. Owens is the head, but the cause could not be ascertained. Among the persons injured are:
An unknown man, who died on the way to the hospital.
EDITH BOYLE, leg broken by jumping from a window.
JAMES H. RAYSON, a fireman, who jumped from a fourth-story window to the roof of an adjoining house.
SARAH STONE, who jumped from a third-story window to the roof of an adjoining house.
LETTIE LAMBERT, who jumped from a third-story window to a shed.
HENRY DOWD, ankle fractured.
JOHN HANNIGAN, suffering from shock.
ELLA CAFFARI, burned about face and suffering from scalp wounds.
WILLIAM COLLINS, suffering from shock.
THEODORE BLEMSFELD, four ribs broken.
JAMES HART, compound fracture of legs and badly bruised.
FRED ABEL, sprained ankle.

THE WORK OF FIREBURNS.

An Enormous Warehouse Burned by Incendiarists.

CHICAGO, March 27.—The Central warehouse at the corner of Rush and Kinzie streets, owned by Ald. William R. Manierre, with its valuable contents, went up in smoke between the hours of 4 and 9 o'clock this morning.

The building, which was a six-story brick, 100 by 125 feet, was filled with the finest kinds of groceries, spices, canned goods, general merchandise, etc., all of which were destroyed, leaving only part of the bare walls. The loss will reach fully \$1,250,000. If this is accurate the fire is the costliest that has visited Chicago since the loss of 1871. The extensive conflagration of 1874, and the burning of Field & Leiter's retail house in 1877 each caused a loss of about \$1,000,000. This one is some bigger from a money point than either of them. Of the loss \$750,000 falls on local insurance companies.

The blaze was of supposed incendiary origin, and Fire Inspector Shay is already searching for the persons who caused the fire department has had to deal with for many months. The basement was filled with all kinds of inflammable material, consisting of wines, spirits, whiskies, alcohol, and some of the stuff was also on the upper floors. As soon as this became known the edifice was doomed, and the fire department could do nothing but endeavor to prevent the conflagration from spreading.

SUNK WITH ALL ON BOARD.
A Fishing Schooner Run Down by a Provincetown Craft.

BOSTON, Mass., March 27.—The schooner M. B. Steadson of Provincetown arrived here today in distress, having been in the collision. Capt. Brown says the schooner left George's banks yesterday with a good breeze and a large catch of fish. When twenty-five miles east of the Highlands of Cape Cod they ran into a small fishing schooner. The Steadson hit the other vessel on the starboard side, about twenty-five feet from the stern, and her flying jibboom went through the other mainsail.

Nothing could be found of the other vessel after the collision, and it is believed that she sank with all on board. It was thought from the cries of the unfortunate men that they were Portuguese and that the vessel was owned in Provincetown. The Steadson had a narrow escape.

KENNEY'S COSTLY FIRE.
The Little Town Practically Swept From the Face of the Earth.

CLINTON, Ill., March 27.—The fire of Monday night, aided by a high wind, has practically swept Kenney, Ill., from the earth. Thirty-two buildings, including stores and business houses, are in ruins. The Clinton fire companies arrived in time to save the depot of the Illinois Central and Midland railways, also the Kent elevator and several large dwellings near the river. The loss will reach \$100,000, about one-fourth of which is covered by insurance. Many persons are without home, food, and raiment, and John Edwards, president of the town board of Kenney, has issued an appeal for help.

Scaled with Molten Metal.
PITTSBURGH, Pa., March 27.—Last night an accident occurred at the "Bessemer" department of Shoenberger's mill, on Sixteenth street, which resulted in four men being badly burned.

Martin Cochran, Charles Stoff, William Kane, and August Myers were filling a large mold with metal preparatory to casting. A sudden jolt of the ladle precipitated considerable metal from the bowl and splashed the men. Cochran was terribly burned about the face, neck and body, and is in a critical condition. The injuries of the others are painful but not serious.

A Young Couple Killed by the Cars.
ELKHART, Ind., March 27.—Robert McCafferty and Lillie Love, each about 19 years old, while driving over a railroad crossing on the outskirts of this city at about 12 o'clock last night were struck by a passenger train and instantly killed. The horse was also killed.

Four Badly Burned.
PITTSBURGH, Pa., March 27.—Last night an accident occurred at the Bessemer department of Shoenberger's mill, on Sixteenth street, in which four men were badly burned.

Martin Cochran, Charles Stoff, William Kane, and August Myers were filling a large mold with metal preparatory to casting. A sudden jolt of the ladle precipitated considerable metal from the bowl and splashed the men. Cochran was terribly burned about the face, neck, and body, and is in a critical condition. WAS IT THE NANTICOKE?

Speculation as to the identity of the Steamer Lost off Virginia.

NEW YORK, March 27.—The consensus of opinion among shipping men here is that the steamer lost off the Virginia coast last week was the Nanticoke, from Newport News, Va., for Kingston, Honduras, with a crew of fourteen men.

The supposition is that the Nanticoke encountered the equinoctial gale, and being dangerously loaded could make no headway. In the attempt to put back for Chesapeake bay she probably foundered. It is no longer believed that the Conserva was the unfortunate vessel. The latter is a splendidly equipped steamer. She is a double steel plated, and especially fitted to withstand such gales as were reported last week. There are no loose fittings about her, such as were seen afloat, and her chairs, saloon panels, etc., are colored, not white. She had no loose sofas on board, and her raft bore her name.

FIFTY BODIES RECOVERED.

Terrible Loss of Life by the Sinking of an Insurance Steamer.

CITY OF MEXICO, March 27.—The steamer Ocean founded on Lake Chapala, near Guadalajara. A large excursion party was on board at the time. Fifty bodies have now been recovered from the wreck. Efforts are being made to raise the steamer, when it is expected additional bodies will be secured.

A LAWYER SENTENCED.

Committed to Jail for a Year for Procuring a Fraudulent Divorce.

CHICAGO, March 27.—Charles J. Beattie, the lawyer who procured a fraudulent divorce for Mrs. A. C. Gordon, was found guilty of contempt by Judge Jamieson this morning and sentenced to the county jail for one year and to pay a fine of \$500.

Beattie, it will be remembered, after the case of Mrs. Gordon had come up on first hearing, gave the woman what he told her were being made to raise the case for her divorce.

Some three weeks afterward he brought a couple of witnesses to the court to testify to her husband's infidelity, and on the strength of this testimony the divorce was finally granted.

But before this Mrs. Gordon had married again, supposing she was a free woman.

Mr. Gordon was in South America at the time and returned to find his wife had been divorced without his having received notice. He attacked the testimony on which the case was decided and the result shows that Beattie hired perjurers to testify against Gordon in order to get a decree for the woman, from whom he had previously collected a fee with the assurance that her divorce had been granted. An appeal has been taken by Beattie.

TO THE PUBLIC

I have just completed at great expense, one of the celebrated JACKSON

DRY COLD STORAGE HOUSES. When I commenced the building I

expected to use the entire space myself, but other business will take me

until July 1st. I have decided to rent this season, one-half the ca-

pacity of the building, represented by 9 compartments, each capable of

holding 250 cases of 30 dozen each. I am satisfied that an investment

of \$500 - \$1000 storage charges and 7500 d. am. eggs at 10 cents will pay

at least 75 per cent. net on the investment. The building contains over

600 tons of ice, which will maintain a temperature of 35 to 37 degrees

during the warm weather. Below find testimonials from houses using

the Jackson Dry Cold Storage:
